1.	Mission and order	8
2.	Introduction, definitions and demarcations	9
2.1	Main product ranges - Valves, Fittings, Pipes, M+C	11
2.2	Market segment groups, target groups, system	12
2.3	Piping components, materials and study notions - alphabetical index	18
3.	World market - tendencies, risks, economic, regions, GDP	23
3.1	Country portraits English / German - Länderportraits E / D	39
3.1.1	China - Total area, population,GDP, Economic criteria, 2006,2019	40
3.1.2	India - Total area, population,GDP, Economic criteria, 2006,2019	53
3.1.3	Russia- Total area, population,GDP, Economic criteria, 2006,2019	64
3.1.4	USA - Total area, population,GDP, Economic criteria, 2006,2019	87
3.1.5	Germany (D) with federal countries	94
3.1.6	Economic figures, country rankings, values - GDP, area, population (2003- 2019) Growth projections 2021 Branches, market segments. using sectors, applications Automotive (page 113) Building (116) HVAC Plumbing (119) Biotech (122) Chemistry (125) Compressed air distribution (132) Electrical engineering industry (134) Energy (137) Glass industry in D (140) Big OEM (142) Semiconductor Industry (144) Cooling technology (147) Plastic Industry (150) Food and beverage industry (153) Life science Health (158) Machines construction (160) Mechanical engineering (161) future-readiness-index (162) Global construction machinery (163) Pharma (168) Process automation (177) Textile (180), Water treatment (182) Drinking water (197) Steel (200)	100

3.3	New product developments - trends, examples - Alfa Laval, AliaxisFip, Bänninger, Gemü, +GF+, Viega	173
3.3.1	Ball vaves +GF+ - Advantages, special features, added values	225
3.3.2	Butterfly valves +GF+ - Advantages, features, added values	242
3.3.3	Diaphragm valves +GF+, new development GS - features	260
3.3.4	Pressure valves +GF+ - Advantages, features, added values	321
3.3.5	Coax valves AS - Advantages, special features, added values	332
4.	Engineering, technologies, materials - advantages, criteria	351
4.1	Material – variants main criterions plastic/ metal, comparison PVDF with Staaainless steel etc	14Pa
4.2	Chemical resistance plastics/ metals	15Pa
4.3	Connecting Technology	
4.4	Substitution - mutual substitution aspects of metals and plastics, products, trends	
4.5	Customizing, specialized solutions, service	
5.	Competitors selection - Piping components development turnover, employees 2002 and 2018 (20)	
5.1	Assessment of the competitors , comparisons, Competitors product strategies	
5.2	Competitors - overview product range piping (500) and plastic piping (800)	
5.3	Competitors steel pipes, fittings (350)	
6.	Price assessment, Comparision project pipes and fittings stainless steel competitors, ABS / Copper, Price relation materials PVC, PE/PP, PVDF, steel, stainless steel – complete systems
