

## High Density Polyethylene SHD1760

**Description:**

SHD1760 is a high density polyethylene indicated for the injection molding process. The minimum biobased content of this grade is 94%, determined according to ASTM D6866.

**Processes:**

Injection Molding

**Control Properties:**

Feature	Method	Units	Values
Melt Flow Rate (190°C/2.16kg)	ASTM D 1238	g/10 min	15.3
Density	ASTM D 792	g/cm <sup>3</sup>	0.960

**Final Remarks:**

1. The information presented in this Data Sheet reflects typical values obtained in our laboratories, but should not be considered as absolute or as warranted values. Only the properties and values mentioned on the Certificate of Quality are considered as guarantee of the product.
2. For regulatory information of the product, please refer to Regulatory Document or contact our Technical Assistance Area.
3. For information about safety, handling, individual protection, first aids and waste disposal, please refer to MSDS.
4. The mentioned values in this report can be changed at any moment without Braskem previous communication.
