

## PP/M AZZURRO 67685

### Composition

Preparation of: Inorganic pigment.

### Application

High dispersion masterbatch specific for polypropylene BCF and CF extrusion (fibers)

*In case of other application than the ones herein suggested, it is highly recommended to contact Viba Customer Assistance Service before using the product. Viba will not be held responsible for production problems due to use of the product other than those mentioned above.*

### Carrier

Polypropylene

### Food Approved

For limits and restriction in using of this product, check the position under food regulation

### Light stability

8 Blue Wool Scale ISO 4892-2

### Heat stability

210 °C EN 12877-2

### Content of critical substances

#### Packaging and Packaging Waste Directive

The total content of lead, cadmium, chromium[VI] and mercury compounds in the product is less than 100 mg/kg, as prescribed by the EU directive 94/62/EEC and the American Regulation CONEG.

In order to evaluate the conformity of the final article, please take into consideration quantities added by other constituents.

**Cadmium** No

**Diaryl** No

*A substance is indicated when its content is upper the limit of detection of 10 mg/kg, or when its average content is known. In all the other cases, when it is reported that a substance is not contained, it cannot be excluded its presence as a technically unavoidable impurity, anyway below the limit of detection of 10 mg/kg.*

### Packaging

Bags Kg 25 on pallets Kg 1250
