

## ECOYADI-2 SP. Z O.O.

### Material & Quantity

|                |                                                |
|----------------|------------------------------------------------|
| Material       | HIPS                                           |
| Form           | Pellets                                        |
| Source         | Post-consumer                                  |
| Grade          | Injection/Extrusion                            |
| Total Quantity | 60 mt                                          |
| Color          | Gray                                           |
| Application    | Electronics , Hangers , Spools , sheets , ETC. |

### Specs & Testing

|                                |                             |
|--------------------------------|-----------------------------|
| Melt Flow Index                | 6-7 g/10min                 |
| Density/Specific Gravity       | 1.04-1.06 g/cm <sup>3</sup> |
| Toughness/Impact (Izod)        | 7-8KJ/m <sup>2</sup>        |
| Tensile Elongation at Break    | 28.00 %                     |
| Tensile Strength               | /                           |
| Flexural Strength              | /                           |
| Flexural Modulus of Elasticity | /                           |
