

ABS 9002

Recycled Acrylonitrile Butadiene Styrene (ABS) Granules

PRODUCT OVERVIEW

Material: ABS

Form: Resin / Pellets

Source: Post-consumer

Grade: Injection / Extrusion

Color: WHITE

Application: Electronics, hangers, spools, sheets, etc.

Monthly Supply: 60 MT/month

SPECIFICATIONS & TEST DATA

PROPERTY	VALUE
Melt Flow Index (MFI)	25–35 g/10 min
Density / Specific Gravity	1.04–1.06 g/cm ³
Toughness / Impact (Izod)	11–12 kJ/m ²
Tensile Elongation at Break	22%
Tensile Strength	Not specified
Flexural Strength	Not specified
Flexural Modulus of Elasticity	Not specified

Total Quantity	200 MT	Monthly Supply	60 MT/month
-----------------------	---------------	-----------------------	--------------------

Important: Values are based on the supplied product TDS information. Test methods and certain mechanical properties were not provided in the source documents. Actual values may vary by production batch.
